Overview

Deltak Touch Expense for Ajera is a mobile application that allows you to view, enter, update, and submit expense reports from anywhere at any time using your touch screen device and synchronize that data to the Ajera database.

Note: The official name of the application is *Deltak Touch Expense for Ajera*. This document only uses it at first mention. The succeeding instances of the application name display *Touch Expense for Ajera*. In addition, the application name in *Apple App Store* and *Google Play* displays *Deltak Touch Expense for Ajera*.

This document contains detailed information and instructions on how to use various features of the application.

Note: Touch Expense for Ajera is only available for use with Ajera 9.0 and higher. Touch server must be installed and configured using the guidelines in the *Deltak Touch Expense for Ajera Technical Installation Guide*.

Mobile Device Requirement

The Touch Expense for Ajera application supports mobile devices that run on the following operating systems:

- Apple iOS 10.0 and higher
- Android 7.0 and higher

Getting Started

In Ajera, the administrator sends you the Ajera API URL via email. Copy and paste the URL in the **Server URL** field when prompted.

Install Touch Expense for Ajera

If Touch Expense for Ajera is not yet installed, complete the following steps:

1. On *Apple App Store* or *Google Play* search for the application (*Deltek Touch Expense for Ajera*).
2. Download and install the application by tapping the appropriate buttons.
3. Tap the installed application, and follow the screen prompts to accept the terms of agreement and usage tracking.

Log On to Touch Expense for Ajera

1. Tap *Deltek Touch Expense for Ajera*.
2. On your first login, the application prompts you to accept Terms and Use of Service and Usage Statistics Tracking. Tap the corresponding buttons.

Note: When usage tracking is enabled, the application tracks the number of times you access the application and how often you use certain features. Touch Expense for Ajera does not track any personal or confidential data, such as user name, projects, and clients.

3. Enter the URL from the email sent by your Ajera Administrator.
4. Enter your user name and password in the corresponding fields.
5. Tap **Log In**.
6. Enter a six-digit PIN code, which you will use on your succeeding logins. For more information, see [Security PIN](#).

Note: Touch Expense for Ajera remembers your user name and selected database (and domain if Windows Authentication is being used) on your next login. To log on using a different user name and database, tap **Forget Me on this Device** on **Settings**. All your user settings and favorites will be lost.

Security PIN

For initial login, Touch Expense for Ajera allows you to create a security PIN. Instead of entering your user name and password on your next login, you need to enter your PIN.

Note: For Ajera SaaS users, security PIN options are set to defaults and cannot be changed.

- **Minimum PIN Length** – Your System Administrator sets the minimum allowed numbers (ranging from 4 through 12) in the configuration file. By default, it is set to 6.
- **PIN Complexity** – When this feature is turned on, Touch Expense for Ajera does not allow you to use a repeating PIN (for example, 111111) or sequential PIN (for example, 123456).
- **Unique PIN History** – This feature prevents you from using the same PIN over and over. It allows technical consultants to set the maximum number of PIN reuse (maximum is 6, which means that your current PIN cannot be the same as your last six PINs).
- **PIN Expiration** – This feature determines the validity of your current PIN before Touch Expense for Ajera requires you to change it. It accepts 0 (meaning no expiration) to 90 days. By default, it is set to 90. If you change your password, uninstall Touch Expense for Ajera, tap **Forget Me on this Device**, or change user, the expiration resets.

Log Out of Touch Expense for Ajera

To log out of the application, take one of the following actions:

- Press the **Home** button of your device.
- Tap , and tap **Log Out**. If you choose to do this, Touch Expense for Ajera prompts you for your PIN or password on your next login regardless of the timeout period.
- Tap , and tap **Settings**. Tap **Log Out**.

Note: If you do not want the application to remember your credentials and favorites, tap **Forget Me on this Device**.

Reset PIN

1. Tap **Log Out**.
2. On the PIN screen, tap **Reset PIN**.
3. On the confirmation dialog box, tap **OK**.
4. Enter your user name and password in the corresponding fields.
5. Enter a new four-digit PIN, and re-enter it to confirm.

Change User

1. Tap **Log Out**.
2. On the PIN screen, tap **Change User**.
3. On **Log In**, enter another user ID and password.
4. Enter a four-digit PIN code, which you will use on your succeeding logins.

Closing Touch Expense for Ajera

If you close Touch Expense for Ajera completely either from the task bar or by turning off the device.

Screen Display

The Touch Expense for Ajera user interface has the following screens, which you can navigate easily by tapping .

Expense Report

This screen displays when you tap **Expense**. It lists all your expense reports for the last 60 days with their respective status. The reports are sorted descending with the most recent report on the top. Tapping a line allows you to view the details of the selected expense report.

Settings

This screen helps you configure the Touch Expense for Ajera settings according to your preferences.

Help

Tap , and tap **Help** to view the user guide for this application. You can also access **Help** from **Settings**.

Field Indicators

Several indicators mark the fields on the screen when you add/edit records or configure settings. They are as follows:

- **Required** — You must enter a value in this in order to continue a task. This field is marked with an asterisk (*).
- **Editable** — This field allows you to enter a value. This field is marked with  when you enter a value. Tap  to clear the field.
- **Read Only** — This field only displays information and is not editable.

Status

Touch Expense uses the following status for expense reports:

- **In Progress** – Expense reports that are not due and have not yet been submitted. You can edit, view, or copy these expense reports.
- **Submitted** – Expense reports that have been submitted but not yet approved. You can view or copy these expense reports. Use Ajera to edit these.
- **Approved** - Expense reports that have been submitted and approved at one level but not yet processed. You can view or copy these expense reports. Use Ajera to edit these.
- **Processed** – Expense reports that have been submitted and approved at all levels. You can view or copy these expense reports. Use Ajera to edit these.

Picker

Touch Expense displays a picker when you tap certain fields, for example **Begin Date** and **End Date**. The picker displays at the bottom of the application, allowing you to scroll through the list of values and set the appropriate values in the highlighted area (for example, **February/18/2019**). After you set the values, tap **Done** to save your changes.

Expense Report

Expenses are grouped by Expense Reports. Each expense report has general information about the report and lines associated with the report.
