## Overview

Welcome to Deltek Touch Time & Expense for Vision 1.5 Release Notes. These release notes contain a summary of the following:

- Pre-Installation Information
- Major New Features
- Enhancements
- Known Issues

The official name of the application is *Deltek Touch Time & Expense for Vision*. This document only uses it at first mention. The succeeding instances of the application name display *Touch Time & Expense*.

In addition, the application name in *Apple App Store*, *Google Play* and *Windows Store* displays *Touch Time & Expense for Vision*.

---

## Pre-Installation Information

Before you begin the installation of Touch Time & Expense, it is important to understand the information discussed in this section.

### Technical Considerations

The following requirements must be met to run Touch Time & Expense:

- Touch Time & Expense supports mobile devices that run on the following operating systems:
  - Apple iOS 8 and higher
  - Android 4.1 and higher
  - Windows Phone 8.1 and higher
- Touch Time & Expense requires that Vision is accessible to your mobile device either over the Internet or via a private network to which your device is connected. For additional information about known issues, see Deltek Knowledge Base [#71390](#).
- Touch Time & Expense works with Vision 7.4 Cumulative Update #06.
- You must install Touch Time & Expense on an IIS server that is installed on Windows 2008, Windows Server 2008 R2, Windows Server 2012, or Windows Server 2012 R2.
- Touch Time & Expense supports applications from *Apple App Store*, *Google Play*, and *Windows Store*.

If you are using an unsupported version of Vision (compatibility mode), you may be able to use the device native browser to enter your organization's Touch Time & Expense URL. The default URL can be changed to something else by the administrator. The Touch Time & Expense URL has the format <https://<server>/deltektouch/vision/time>, where <server> refers to the host name of your Touch Server.

### Compatibility Mode Definitions

Compatibility Mode	Description
<b>Fully Compatible with Vision</b> 	You must be on the latest version of each component (Touch Time & Expense application, Touch Server, and API). All features and functions in the application are available to you.
<b>Partially Compatible with Vision</b> 	At least one of the components (Touch Server and/or API) is an older version. New features of the application are hidden and not available to you.
<b>Potentially Compatible with Vision but no Longer Tested</b> 	The native or browser application may be compatible with Vision, but this combination is no longer tested or supported by Deltek.
<b>Incompatible</b> 	There are some combinations of API and Touch Server that make it impossible to even use the browser version to run the application.

### Native Application Version Compatibility

Vision / Touch Server	7.4 CU #06	7.4 CU #5 and 5	7.4 CU #03 or Lower	7.3 CU #16 or Higher	7.3 CU #13 to CU#15	7.3 CU#12 or Lower	7.2 CU#14 or Higher	7.2 CU #13 or Lower	7.1 CU #11 or Higher	7.1 CU#10 or Lower	7.0 SP1 HF#6 or Higher	7.0 SP1 HF#5 or Lower	6.2
1.5													
1.4.1													
1.4													
1.3													
1.2													
1.1													
1.0.X													

## For Additional Information

### Customer Care Connect Site

The Deltek Customer Care Connect site is a support Web site for Deltek customers who purchase an Ongoing Support Plan (OSP).

The following are some of the many options that the Customer Care Connect site provides:

- Download the latest versions of your Deltek products
- Search Deltek's knowledge base
- Display or download product information, such as release notes, user guides, technical information, and white papers
- Submit a support case and check on its progress
- Transfer requested files to a Customer Care analyst
- Use Quick Chat to submit a question to a Customer Care analyst online
- Ask questions, exchange ideas, and share knowledge with other Deltek customers through the Deltek Connect Customer Forums
- Subscribe to Deltek communications about your products and services
- Receive alerts of new Deltek releases and hot fixes

For more information regarding Deltek Customer Care Connect, refer to the online help available from the Web site.

---

### Access Customer Care Connect

To access the Customer Care Connect site, complete the following steps:

1. Go to <http://support.deltek.com>.
2. Enter your Customer Care Connect **Username** and **Password**.
3. Click **Log In**.

If you forget your username or password, you can click the **Account Assistance** button on the login screen for help.

---

## Available Documentation for this Release

The following table lists the Deltek documentation available for this release. Except where noted, all the user guides and quick reference guides listed in this table are available for download from the Deltek Customer Care Connect site.

Document Name	Description
Deltek Touch Time & Expense for Vision Installation Guide	This document provides instructions for the installation and configuration of application.
Deltek Touch Time & Expense for Vision User Guide	This document contains detailed information and instructions on how to use various features of the application.

## Major New Features

This section includes summaries of the new features included for the 1.5 release.

### Time Approval Screens

Touch Time & Expense now allows you (as the Timesheet System Administrator) to view and approve employee timesheets using the **Time Approval** screen. It allows you to view the list of timesheets either by status or group and the timesheet details by day, project, or unit. In addition, it displays the following details for each row on the **Project** and **Unit** tabs:

- Project Number and Short Name
- Phase Number and Name
- Task Number and Name
- Labor Code Code and Description (*does not apply to Unit*)
- Labor Category (*does not apply to Unit*)

These details are set up in the **Show Timesheet Left Grid Options** section of the Setup tab of the Company Timesheet Configuration in Vision core.

To display **Time Approval**, tap , then tap .

### Time Approval (List)

- If you view timesheets by **Status**, it only displays the list of employees in groups to which you have approve or edit rights. The **Submitted** timesheets display first, followed by **In Progress**, **Missing**, and **Approved** timesheets. All submitted timesheets display in bold, with hours in green and a green icon next to the hours.
- If you view timesheets by **Group**, it only displays the list of groups to which you have approve or edit rights. It displays groups in ascending alphabetical order. If an employee does not have a group, the employee name displays under **No Group Assigned**, which displays at the top of the list.
- You can also use the search field to filter the list. In using the search field, enter part of the first, preferred, or last name to find records in the list. Touch Time & Expense displays all entries containing the part that you enter. To clear your search, tap .
- Tapping  or  without selecting any employee allows you to view the previous or next period, respectively.
- Tapping  allows you to select one or more employees.
- Tapping  allows you to select one of the following options:
  - **Change Company** — This option only displays if multi-company is used and you have approve or edit rights for another company. Tapping this option displays a list of companies to which you have access. The company name displays under the timesheet period

- **Approve Selected Timesheets** — Tap the checkbox of at least one timesheet in the list to enable this option. Tapping this option approves multiple timesheets at once and returns you to the **Time Approval** screen. You cannot approve timesheets with the **Missing** status.
- **Email Selected Employees** — Tap the checkbox of at least one timesheet in the list to enable this option. Tapping this option opens the default email application of your device with the selected employee's email address in the **To** field. It allows you to send a quick message to employees, for example, ask a question about their timesheets or remind them to complete their timesheets.

### Time Approval (Detail)

- Tapping a line allows you to view the timesheet details of a particular employee. You can view and approve timesheet details by **Day**, **Project**, or **Unit**. Tapping a line in **Day** view displays the details for a particular day. The same goes for the **Project** and **Unit** views.
- Tapping  or  on the **Time Approval** (detail) screen allows you to view the previous or next employee, respectively.
- Tapping  allows you to select one of the following options:
  - **Send Email** — Tapping this option to send an email to the employee using your device's email application with the employee's email address in the **To** field.
  - **Approval List** — Tapping this option to return to the **Time Approval** (list) screen.
- Tapping  allows you to approve the timesheet.

## Enhancements

This section includes summaries of the enhancements made to existing features in the 1.5 release.

### Approved, Posted, and Closed Timesheets

Touch Time is now capable of displaying approved, posted, and closed timesheets, allowing you to view and copy them. All fields in these timesheets are not editable. Closed timesheets, however, only display if the timesheet dates are within the limit, which is 90 days before and after the current date.

To copy any of these timesheets, tap a period timesheet with the **New** status preceded by a period timesheet with the **Approved**, **Posted**, or **Closed** status. Touch Time asks you if you want to copy the previous timesheet. Tapping **Yes** copies all details from the previous timesheet, except for hour values and comments.

### Cordova Update to Fix Remote Exploit of Secondary Configuration Variables in Apache Cordova on Android (CVE-2015-1835)

This release addresses **CVE-2015-1835**. Android applications built with the Cordova framework that do not have explicit values set in Config.xml can have undefined configuration variables set by Intent. This can cause unwanted dialogs appearing in applications and changes in the application behavior that can include the app force-closing.

For more information about this vulnerability, see <https://cordova.apache.org/announcements/2015/05/26/android-402.html>.

Delttek strongly suggests that you install the latest application version, which includes the security patch from the vendor.

---

## Known Issues

This section includes summaries of the issues that exist in Touch Time & Expense and will be resolved in the future. You will notice that the descriptions of some software defects contain extra information, including ways to work around the defects. The additional information has been included in case you instituted some of the workarounds and can now stop using them, or you simply want more background information about the defect repairs.

This section does not contain a complete list of outstanding issues. Delttek only includes the high priority issue in Touch Time & Expense for this release. Please contact Delttek Customer Care if these known issues present a significant impact on your business.

---

### Start and End Time Error on Compatibility Mode

*This has been added in 1.2.*

**Description:** If your Touch Time application is running on compatibility mode, editing a field on the **Edit Line** screen and tapping **Save** would display an error message about start and end times.

**Customers Impacted:** This defect affects all Touch Time & Expense users.

**Workaround Before Fix:** None.

**Additional Notes:** None.

### Fail to Display Tax Field after Tapping Total Tax Amount

*This has been added in 1.4.*

**Description:** If you tap the **Total Tax Amount** field on the **Edit Line** screen, the **Tax Field** screen would not display. This issue occurs when you hide the keyboard that displays when you tap the **Net Amount** field using the physical back button.

**Customers Impacted:** This defect affects Touch Time & Expense users who are using devices running Windows Phone 8.1.

**Workaround Before Fix:** Hide the keyboard by tapping anywhere on the screen (except for the keyboard) before tapping **Total Tax Amount**.

**Additional Notes:** None.

### Cannot Refresh Computation by Tapping Done or Physical Back Button

*This has been added in 1.4.*

**Description:** If you enter or edit values on the **Edit Line** screen of an expense report and tap **Done** or the physical back button of the device, Touch Time & Expense would not refresh the computed values.

**Customers Impacted:** This defect affects Touch Time & Expense users who are using devices running Windows Phone 8.1.

**Workaround Before Fix:** Select the next field to refresh the values.

**Additional Notes:** None.

Deltek is the leading global provider of enterprise software and information solutions for professional services firms, government contractors, and government agencies. For decades, we have delivered actionable insight that empowers our customers to unlock their business potential. Over 14,000 organizations and 1.8 million users in approximately 80 countries around the world rely on Deltek to research and identify opportunities, win new business, optimize resource, streamline operations, and deliver more profitable projects. Deltek – Know more. Do more.®
